

# Shanghai Exchange - Cour~2

On the 24th of January, we expressed our gratitude by welcoming our fellow buddies from Shanghai. We are thrilled to show our guests from SUIS WY the culture of Schleswig-Holstein.

Despite the harsh weather conditions on that day, the students of the Nordseeschule greeted 13 guests from 9000 kilometers away with open arms. Our guests, accompanied by their buddies from our school, were eager to experience the daily routine of a German student.

A welcome ceremony is organized on the first day. The 10th grade students in the Chinese class, led by Frau Liu, delivered an impressive performance by singing a famous Chinese song 北京欢迎你 (Beijing welcomes you).

This performance showcased the significant progress the class has made over the past year. Everyone's efforts are greatly appreciated and highly praised by the representatives of SUIS WY.

We would like to use this chance to thank the school for supporting the Chinese course.

Following the ceremony, we embarked on a tour around Sankt Peter-Ording. We visited various places, including The Haus Jensen Heimatmuseum (Museum der Landschaft Eiderstedt), where we learn about the history and geography of Eiderstedt, and the SPO church, where we introduced our Christian history to our buddies. In contrast to the bustling city of Shanghai, SPO is the epitome of peace and tranquility.

As nature plays an vital role in Northern Germany, our school organized a small mudflat hike in the Wattenmeer. It is truly a once in a lifetime experience for our guests, allowing them to take explore the ecosystem of the North Sea. And of course, how hard it is to walk in deep mud! There were a few unfortunate individuals who had their boots stuck in the mud.

But overall, we all enjoyed ourselves

Throughout the week, the buddies participated in various activities with the guest families. One of the highlights is the overnight party.

We would like to extend our gratitude to the Family Thiesen for providing their house for the party.

We had an absolutely wonderful time there. We witnessed the playful side of our guests, not only did we strengthen our bonding, but we also witnessed unexpected talents there. Never have we thought our guests could sing and dance so well.

**WE BELIEVE THROUGH THIS PROGRAM THE STUDENTS OF SUIS WY HAVE LEARNT JUST AS MUCH AS WE DID IN SHANGHAI. WE HOPE OUR GUESTS ENJOYED THE STAY AS MUCH AS WE DURING OUR TIME IN SHANGHAI, AND WE SINCERELY LOOK FORWARD TO MEETING AGAIN ONE DAY**
